	VsceneBasic	VsceneTeam	VsceneCampus	VsceneSuperOrg
Package	VsceneBasic users can access the general service, view their dashboard with upcoming scheduled meetings, chat with other users on the Vscene community and collaborate in Meeting Spaces. Recording and webcasting is not supported on this plan	This plan is designed for desktop and mobile meetings where some room systems may need to be connected but support is required for up to 30 x participants. This plan includes unlimited recording and webcasting functionality as well as global and private chat.	This plan is for meetings that require different kinds of end-points connected. Scheduling is automated which means room systems will be called automatically. Live operator support is provided for real-time meeting control. There are also comprehensive reporting features and dashboards.	SuperOrg supports a very large amount of registered host and admin users within a customised experience. SuperOrg provides support for a parent organisation to create and manage child organisations or departments.
